“You gave us practical tools for burnout. Most of the stuff out there is just “fluff” to me - this was practical.”

=====

“I enjoyed meeting colleagues from around the country and knowing we are all experiencing the same stuff.”

=====

“Though I am not burned out, I found so much of it practical and helpful for preventing burnout and for bringing back to colleagues at home. I’ve recommended the tools to many people.”

The Training and Support to Be an Effective Physician Wellness Champion using our Experience [Training over 40,000 Doctors](#) to Stop Physician Burnout for [175 Corporate Clients](#) to date.

Healthcare’s New Quadruple Aim:

The Triple Aim, first proposed by the Institute for Healthcare Improvement (IHI) in the 1990’s, mandates healthcare organizations focus their leadership bandwidth on three areas of improvement - Cost, Quality and Population Health.

The IHI now admits that this last twenty years of relentless focus on the Triple Aim is actually a contributor to the current physician burnout epidemic – for one simple reason. ***The Triple Aim pays no attention to the people providing the care*** – the

physicians and staff. Cost, Quality and Population Health improve, often at the people's expense.

[The Quadruple Aim movement](#) adds the health and wellbeing of the providers to the original Triple Aim. In a true Quadruple Aim organization, no initiative targeting Cost, Quality or Population Health would launch without ensuring its effect on the health of the people was either neutral or positive. The common sense of the Quadruple Aim is staggering. How can we expect our people to take the best care of our patients if they are themselves overstressed, out of balance and walking the cliff edge of burnout?

Unfortunately, most healthcare workplaces are far from this Quadruple Aim reality. *Without strong, caring, skilled leadership, the average healthcare workplace is quite hostile to the people doing the work.* This is a natural expression of the culture and conditioning of our medical education and it does not have to be this way.

How will we bridge this gap? **How will we change the culture of the workplace to one of support, trust, health and engagement?** *We need Quadruple Aim Physician Leaders Like You* who understand how to support wellbeing in themselves and others -- leaders who have the awareness and skills to prevent burnout organization-wide.

Ideal Participant:

The retreat is 100% appropriate for any physician leader AND was designed specifically for the typical "straddle leader". The physician who is part-time clinical and occupies an official part-time leadership position in the organization at the same time. Straddle leaders are at higher personal risk for burnout, struggle to find adequate time for their leadership role and have not been trained in the leadership and communication skills to consistently build trust and engagement on their teams.

The retreat experience is IDEAL for you if you either currently are in the position of Wellness Champion in your ward, wing or organization – or if you aspire to be that wellness leader. You are one of the front-line physician leaders who are "my boss" to the clinical providers and care delivery teams.

It is with front-line leaders like you that the Quadruple Aim will live or die in the organization. [And we are well aware you may - or may not - be getting paid or have protected hours for your leadership activities currently. Negotiating for time and money will be one of the topics we cover at the retreat.]
